# COLINE FARDEL

FullStack Developer

2 years of experience

## ABOUT

I am a passionate full-stack developer dedicated to creating innovative and functional web applications. With experience in both frontend and backend development, I am constantly seeking new challenges to sharpen my technical skills and deliver solutions that meet user needs.

## WORK EXPERIENCE

### Utopix

2022 – 2024

FullStack Developer

- Development of a Product Lifecycle Management (PLM) application.
- Writing technical documentation for new features.
- Managing releases for specific projects.
- Refactoring legacy code.
- Creating a survey feature for both backend and frontend.
- Writing unit tests with JUnit 5.

Tech: Java, Spring Boot, Angular 16, Jira, Jenkins, Docker, MySQL, Typescript, Confluence

### Fiducial Winbiz

2021 – 2022

Backend Developer

- Development of a web accounting application.
- Creation of an admin platform using React.
- Updating legacy PHP code to support new features.
- Documenting a REST API with Swagger.

Tech: JavaScript, PostgreSQL, PHP, Laravel, React, Swagger

### HES-SO Valais Wallis

2021

Intern

- Research, analysis, and testing of various tools available on specific operating systems (ChromeOS, MacOS, Windows) and comparison with international standards.
- Writing a detailed report in English and presenting findings.
- Weekly meetings with clients.
- Complete autonomy while working remotely.
